PRICES ADVANCE; MODERATE BUYING

Orders Came in at Irregular Intervals, With Long Halts and Rising Tendency.

OFFER GIVES CHEERFUL TONE

Proposal of Secretary of Treasury to Buy Bonds Helps Conditions in Market.

NEW YORK, February 11,-The notable fact in the action of the stock market to-day was the readiness with which prices advanced on a volume of buying which was moderate. The buybuying which was moderate. The buying orders came into the market at irregular intervals, and there were long halts in the rising tendency, and in the execution of buying orders. The hardness of the market in the dull intervals was remarkable, and was lidingly significant of the great subsidence of the selling. The receipts of the news from Washington that the Treasury Department would buy \$25,000,000 of the nearly matured 4 per cents. of 1907 at 101½ was the signal of the most animated buying of the session. The first impression given by the news was of relief from the anxiety over the coming withdrawal on Friday of this week of the remaining half of the deposits of government funds made with the banks in December for \$10,000,000. At that time only about \$3,000,000 of the bonds were lurned in. The price offered is pracilically that ruling in the market. But response to the offer is not expected from investment holders it is not expected that large offerings will be made. More stress was laid on the ing orders came into the market at them on deposit to secure circulation. Prom investment holders it is not expected that large offerings will be made. More stress was laid on the expectation that the decision of the Treasury would be modified regarding the withdrawal of deposits on Priday. There were rumors in constant circulation in the market also of a feeling of greater confidence in the part of capitalists over the attitude of the administration towards corporations. Call money was higher than last week, and the time money market was firm in sympathy, but the stock market reflected no uneasiness on that score. The duliness of the market was parily accounted for by the interruption of operations for tomorrow's holiday. The strength of coppers was the offective sustaining influence in the latter market. Rumors of Intended increase in the Anaconda dividend were used with effect.

Bonds were heavy. Total sales, par value, \$1,420,000. United States 2s registered, advanced \$5, the coupons and the old 4s \$4, and the new 4's coupon ½ per cent on call.

Total sales of stocks to-day, 758,700 shares.

ON THE LOCAL MARKETS

PRODUCE MARKET

CONTINUES FIRM

CONTINUES FIRM

The Produce and Fruit Market opened yesterday with light receipts and prices on everything stiff, except that eggs weakened a cent a dozen on crate lots.

The commission men and the wholesalers do not look for heavy receipts this week, either of fruits, vegetables or other produce. The weather conditions are not favorable to shipments from nearby country points. However, there will be enough stuff in to meet the general demand at the strong figures already quoted.

A few Florida vegetables are finding their way to this market, and yesterday cabbage, beets, lettuce and some others, as well as a considerable quantity of strawberries could be had, but all were quoted at figures that suggested millionsire's dinners. The strawberries were wholesaling at 35 cents, and when they reached the retailer nothing less than 50 cents could touch even the smallest basket.

Poultry was no higher yesterday than it was last week, but the supply being only just enough to meet the active demand there was no such

thing as shading prices. Eggs were solling at 23 cents in crate lots, a cent under Saturday's prices.

TOBACCO SALES WILL

BE GOOD THIS WEEK

BE GOOD THIS WEEK
The warehousemen look for fairly good breaks of sun-cured leaf tobucco this week. Of course, much depends upon the weather, but advices
of rail shipments indicate that there
will be some good stocks on the market this morning. The sales will run
as follows: First at Shockoe, second
at Crenshaw's, third at Shelburne's
and fourth at Stonewall.
Information received by the commission men who handle the bright
Virginia goods is to the effect that
the bright markets, had small sales
last week and the dealers there begin
to think the bulk of last; year's crop
has been marketed. Of course there
is much of the bright goods' still in
first hands, but usually at this time of
the year more than balf the crop is
in the hands of the growers. The opinion is general that this is fiot true
this year, and that brights will be
comparatively scarce the remainder of
the season.

PRES ORR'S STATEMENT.

Says Not a Dollar of Company's

Money Was Improperly Spent. NEW YORK, February 11.-A circular

NEW YORK, February 11.—A circular letter, issued to policy-holders by Alexander E. Orr, president of the New York Life Insurance Company, was made public to-day. Mr. Orr declares the company's affairs are being economically conducted. Mr. Orr declared the company's representatives were forbidden to use the policy-holders' funds, to take up time of salaried employes in business hours, and that to the best of his knowledge mot a dollar of the policy-holders' money was improperly spent." He also stated that the charge against the company of impeding the progress of the recent elections of trustees is equally untrue.
